

# 177882 - measureQuick 2.5-Day A/C & Heat Pump Train the Trainer Certification

A great opportunity to become a Certified User & Trainer of measureQuick App for HVAC.

The Future of Quality Assurance

**measureQuick**  
Measurement Science at Work

**measureQuick Certified Trainer** enables you to lead your own measureQuick courses In-House and to anyone. You'll receive all our training materials that you can edit as needed. The course will guide you through teaching the mQ process and guidance on being a HVAC Trainer using measureQuick. Be the Champion in your company providing inhouse training or provide independent training and charge what you want. Once you become certified, you can schedule your own workshops and keep all the revenue you make from the class. We will promote you on our website and list you as a resource for local contractors to reach out to for training.

### mQ Interface and Navigation

- Home Screen
- Tasks
- Equipment map
- Test
- measureQuick cloud
- Settings
- Demo Data

### Required Probes, Tools and Connected Apps

- Placement
- Brands and Types
- Electrical
- Connectivity
- Connected apps

### Premier features (Qbits) vs Free

- Vitals Score
- Benchmarking
- Reports / Sub-System review
- Streaming

### Work flows -

- Guided Work flows
- Standard Work flows
- Non-invasive

### mQ Features

- Profiling the equipment
- Filter information
- Notes historical data
- Photo documentation
- Other features

### Furnace / Combustion Testing / Heat Pumps

- Work flow
- Profiling the system
- Clocking the Gas Meter

### Required Probes and Tools

- Mapping
- Tubing and Accessories

### Heat Pump Work flows

- Profiling
- Discharge line
- Testing the system

**CHECK A SYSTEM  
FOR OVER 100  
POSSIBLE FAULTS  
IN 60 SECONDS.**

# WHO KNEW HVAC COULD BE SO COOL?

The industry's only commissioning platform, redesigned to generate **more revenue** and **increase productivity**.

**measureQuick (mQ)** is an app that collects and analyzes heating and cooling system performance using Bluetooth® tools, finding faults that are normally overlooked.

**mQ** generates a unique Vitals Score report that summarizes equipment conditions for the homeowner.

Your company can meet higher installation and performance standards, benchmark systems for future service, and increase revenue.

## INCREASE REVENUE, DON'T LET ISSUES GO UNDIAGNOSED

Companies using **mQ** see increased revenue, higher average ticket sales and conversion rates, and fewer callbacks. At the right are real numbers showcasing mQ's impact of one technician in a company of ten.

Without measureQuick June - August 2021		With measureQuick June - August 2022	
Total Sales	\$288,300.00	Total Sales	\$465,456.00
Conversion Rate	50%	Conversion Rate	56%
Avg. Ticket	\$2,848.81	Avg. Ticket	\$4,637.18
Avg. Options/Call	2.34	Avg. Options/Call	3.50

Total spent on QBits during this time (company-wide): \$460.00
